

Ark Boulton
Academy

Enrichment Timetable 2017 - 2018

Why should you take part in enrichment activities?

It is our aim at Ark Boulton Academy to provide you with the skills, qualities and qualifications that you need to be successful at university and in a career of your choice.

How can taking part in an enrichment activity help you to achieve this? It's simple. The world of work and further education is constantly raising its' standards, expecting more from applicants. Joining an enrichment activity demonstrates commitment, determination, resilience and passion. All key qualities that employers and universities value.

Some other skills you may develop by taking part, are leadership, teamwork, communication, public speaking, performance skills, self-confidence, increased self-awareness, problem solving and subject specific skills. The list is endless.

Most importantly, enrichment activities are fun! They provide an opportunity for you to learn in a more relaxed environment with your friends. There is a wide variety of enrichment activities available to you, however if there is something we have missed that you would like, please let us know. We want what is best for you.

Joining a club is easy. Come along, get involved and see what you get out of it. I assure you, it will only be positive!
